SADÉ INESON

OPERATIONS, RISK & AI TRANSFORMATION LEADER

Edgware, London | 07368 418148 | shardsineson@gmail.com | LinkedIn: www.linkedin.com/in/sade-ineson

LEADERSHIP PROFILE

Accomplished operations leader with 16+ years of experience across banking, fintech, e-commerce and digital marketplaces. Extensive expertise in customer due diligence (CDD), fraud prevention, risk management and operational transformation, with a proven track record of leading teams, improving performance and implementing scalable processes. Combines strategic leadership with hands-on experience in AI-driven automation, financial operations and organisational change, delivering measurable improvements in efficiency, risk controls and business performance.

CAREER HIGHLIGHTS

- **AI & Automation:** Helped transform verification operations through AI-enabled workflows, achieving approximately 95% automated case handling.
- **Process Innovation:** Developed and refined a Gemini-powered proof-of-address verification process, achieving 82% automatic approval.
- **Risk Management:** Led operational fraud prevention controls, maintaining fraud and theft losses at approximately 3.2% of GMV against a target below 4%.
- **Operational Growth:** Contributed to scaling ASOS operations from 112 to 368 employees as part of the wider leadership team.

PROFESSIONAL EXPERIENCE

Head of CDD, Identity Verification & AI Strategy
HYGGLO (FORMERLY FAT LLAMA) | AUG 2020 – PRESENT
Previously: Global Senior Fraud Manager / Interim Head of Fraud

- Lead CDD, identity verification and fraud prevention operations, overseeing risk-based decision-making, complex escalations, operational controls and service performance.
- Develop and implement operational strategies, policies and procedures to strengthen fraud prevention, improve efficiency and ensure consistent decision-making.
- Lead and develop teams through recruitment, coaching, performance management, training and organisational change.
- Drive AI-led transformation, designing and improving automated verification workflows to reduce manual intervention while maintaining effective risk controls.
- Develop SQL and Redash reporting to monitor operational performance, identify emerging risks and support data-driven decision-making.
- Support wider HR and people operations, including employee relations, employment contracts, salary reviews, staff wellbeing and workplace policies.

- Partner with senior leadership on operational strategy, resource planning, budgets, organisational restructuring and cross-functional transformation.
- Oversee operational risk performance, balancing fraud prevention, customer experience and business efficiency across multiple markets.

EXPANDED REMIT | UK FINANCE OPERATIONS

Additional responsibilities undertaken from October 2026 alongside existing operational leadership duties.

- Oversee UK supplier invoices, expenses and payment processes through Apron, ensuring accurate documentation, expense coding, approvals and timely payment preparation.
- Review monthly payroll, salary adjustments, PAYE/HMRC liabilities and pension contributions, coordinating payment preparation and identifying discrepancies.
- Manage employee expense reimbursements and customer compensation payments, ensuring appropriate authorisation, accurate records and duplicate-payment prevention.
- Coordinate financial reconciliations, corporate card documentation, month-end reporting and communication with external accountants, using Apron, Wise and Xero.

EARLIER EXPERIENCE

Customer Operations Leadership & Consultancy
JUSTPARK / EPORTA / FREELANCE | APR 2018 – AUG 2020

- **JustPark:** Led customer operations initiatives, including service strategy, budgeting, performance management and employee relations.
- **Eporta:** Managed a team of 23 and led Salesforce CRM and live-chat implementation, including system migration and employee training.
- **Freelance:** Delivered operational consultancy, process improvement and project support across client businesses.

Team Lead
ASOS | APR 2016 – FEB 2018

- Contributed to scaling operations from 112 to 368 employees as part of the leadership team, supporting workforce planning, team development and operational performance.
- Led high-volume customer service operations, overseeing team performance, KPI delivery, coaching and the implementation of new systems and processes.

Banking & Financial Services Operations
HSBC / BARCLAYS / NATWEST | SEP 2006 – APR 2016

- Built extensive experience across retail banking, customer operations, financial services processes and regulatory compliance.
- Applied Know Your Customer (KYC), Anti-Money Laundering (AML) and customer due diligence procedures, supporting identity verification, risk assessment and regulatory requirements.
- Held team leadership responsibilities, overseeing operational performance, quality assurance, employee development and customer service standards.
